

FLIGHT REVIEW ASSESSMENT

(Transport Canada Advanced RPAS Pilot Certificate)

901.63

ELIGIBILITY & DOCUMENTS

NO
CRITICAL
ERROR

YES
MET
REQ

Candidate Name:			Citizenship or Residency:		☐	☐
Review Date:	Time:	Location:	Residence address as per PC:		☐	☐
PC RPAS Pilot Certificate #	PC-	Government issued Photo ID:		☐	☐	
TC Transport Canada Account #	TC-	Small RPAS Advanced Exam Pass:		☐	☐	
Is the candidate using a Visual Observer for their Flight Review?						

901.27

FLIGHT PLANNING

1, THE SITE SURVEY PROCESS

NO
CRITICAL
ERROR

NO
MAJOR
ERROR

NO
MINOR
ERROR

YES
MET
REQ

Have the Candidate Explain the Site Survey? (No questions or prompting from the FR)...

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|--------------------------|
| (a) Were current flight publications used to extract pertinent information (either paper or digital)? | ☐ | ☐ | ☐ | ☐ |
| (b) Was the weather forecast and current conditions determined from relevant & reliable publications? | ☐ | ☐ | ☐ | ☐ |
| (c) Has the correct airspace been identified and documented? | ☐ | ☐ | ☐ | ☐ |
| (d) Were all pertinent information about local aerodromes (type, range, bearing, contact etc.) identified? | ☐ | ☐ | ☐ | ☐ |
| (e) Were all potential obstructions, terrain features and alternative landing sites identified? | ☐ | ☐ | ☐ | ☐ |
| (f) Did the candidate demonstrate that any current NOTAM's for the area were reviewed? | ☐ | ☐ | ☐ | ☐ |

Suggested Flight Reviewer questions...

- | | | | |
|---|--------------------------|--------------------------|--------------------------|
| Describe the method by which to inform Transport Canada of an incident or accident? | ☐ | ☐ | ☐ |
| What additional procedures are required when operating in controlled airspace? | ☐ | ☐ | ☐ |
| How do you intend to ensure the public remain safe and clear of your operation? | ☐ | ☐ | ☐ |
| How close can you fly your RPAS to a bystander? | ☐ | ☐ | ☐ |

901.27

RPAS FLIGHT PREPARATION

2, RPAS & EQUIPMENT

NO
CRITICAL
ERROR

NO
MAJOR
ERROR

NO
MINOR
ERROR

YES
MET
REQ

- | | | | |
|---|--------------------------|--------------------------|--------------------------|
| (a) Is the RPAS fully serviceable and registered with the registration number clearly marked? | ☐ | | ☐ |
| (b) Are all RPAS additions, modifications or third-party software used, recorded in the registration? | | ☐ | ☐ |
| (c) Can the candidate access the RPAS operations manual? | | ☐ | ☐ |
| (d) Does the candidate have a current maintenance record for the RPAS? | | ☐ | ☐ |
| (e) Does the candidate have adequate emergency equipment on hand (Fire Extinguisher & First Aid Kit)? | | ☐ | ☐ |
| (f) Does the candidate have a suitable means of communicating in an emergency? | | | ☐ |

Suggested Flight Reviewer questions...

- | | | |
|---|--------------------------|--------------------------|
| What is the TC compliance level of the RPAS? | ☐ | ☐ |
| What is the max wind speed and operating temperature of the RPAS? | ☐ | ☐ |
| What kind of entries would you put in the maintenance log? | ☐ | ☐ |
| How would you proceed if you observed a small crack on the RPAS landing gear? | ☐ | ☐ |

PRACTICAL FLIGHT ASSESSMENT

3, PRE-FLIGHT CHECKS

- Has the candidate made a reasonable and competent decision to fly the RPAS in the current conditions?
- Has the airport operator been contacted (when 3 NM from airports or 1 NM from heliports or in controlled airspace)?
- Did the candidate follow a checklist and perform adequate pre-flight checks of the RPAS?
- Has the candidate briefed the VO and/or the FR on their duties and safety procedures for the flight?
- Did the candidate verify and correctly program the RPAS for "return to home" with an appropriate altitude?

NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
☐			☐
☐			☐
☐	☐	☐	☐
	☐		☐
	☐		☐

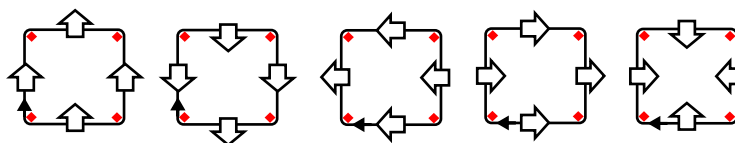

4, PERFORM A TAKE OFF

- Did the candidate use a safe and organized procedure to take off?
- Did the candidate make a note of the launch time?
- Did the candidate fly to a safe height and complete a full function test of the RPAS

NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
☐	☐	☐	☐
		☐	☐
		☐	☐

5, DEMONSTRATE ABILITY TO NAVIGATE AND FLY THE RPAS

- Navigate the RPAS clockwise around a fixed square grid with the following relative RPAS headings...
(with no hesitation or corrections on the turns)

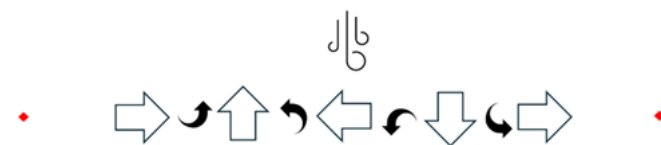

NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
☐	☐	☐	☐

- Navigate the RPAS Clockwise and Counter-Clockwise in a figure 8 (following direction of flight)...

☐	☐	☐	☐
--------------------------	--------------------------	--------------------------	--------------------------

- Demonstrate an ability to maintain a steady track while compensating for crosswinds

☐	☐	☐	☐
--------------------------	--------------------------	--------------------------	--------------------------

- Demonstrate the ability to approximate the distance and altitude of the RPAS from the candidate
- Demonstrate the ability to navigate the RPAS home without the use of the navigation/video display
- Demonstrate an effective scanning technique of monitoring battery life, range, altitude, signal strength alarm status etc.

☐	☐	☐	☐
☐	☐	☐	☐
☐	☐	☐	☐

6, PERFORM A LANDING

- Did the candidate use an organized and safe procedure to land the RPAS?
- Was an adequate post-flight checklist followed for the RPAS?
- Did the candidate make a note of the landing time?
- Has the airport operator been contacted (when 3 NM from airports or 1 NM from heliports or in controlled airspace)?
- Has the RPAS been made safe and secure?

NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
☐	☐	☐	☐
☐	☐	☐	☐
		☐	☐
☐	☐		☐
		☐	☐

EMERGENCY PROCEDURES

7, DESCRIBE THE LOSS OF THE C2 LINK EMERGENCY PROCEDURE

	NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
(a) Can the candidate describe their lost link emergency procedure?	☐	☐	☐	☐
(b) Does the candidate have a Lost link procedure checklist ready and on hand for reference?	☐			☐
(c) Does the lost link procedure define how to correctly brief a VO on their duties in the event of a lost link?		☐	☐	☐

Suggested Flight Reviewer questions...

What actions could you take to help regain your C2 link?		☐	☐	☐
How would you proceed if the C2 link was good, but your video feed has failed?		☐	☐	☐
How would you document and report a C2 link loss occurrence?		☐	☐	☐

8, DESCRIBE THE FLY-AWAY EMERGENCY PROCEDURE

	NO CRITICAL ERROR	NO MAJOR ERROR	NO MINOR ERROR	YES MET REQ
(a) Does the candidate have an emergency fly away procedure checklist ready and on hand for reference?	☐			☐
(b) Does the candidate have the correct contact number to use, and information required for a fly away?	☐	☐	☐	☐
(c) Does the candidate have a clear understanding of how to safely initiate a flight termination?		☐	☐	☐
(d) Does the fly away procedure define how to correctly brief a VO on their duties in the event of a fly away?	☐	☐	☐	☐

Suggested Flight Reviewer questions...

What is your course of action if you should regain control of the RPAS?		☐	☐	☐
As the PIC, how would you manage a vertical fly away?		☐	☐	☐
How would you document and report a fly away occurrence?		☐	☐	☐
What is the approx. maximum distance your RPAS could cover on a full battery?		☐	☐	☐
What is your procedure for a crash-landing scenario?		☐	☐	☐

Additional Comments...

CANDIDATE SIGNATURE

FINAL OVERALL ASSESSMENT
PASS
☐

failure of one item during a complete flight review __

FAIL
☐

failure to do an appropriate site survey __

failing to use effective visual scanning techniques during the flight review __

displaying unsafe flying __

displaying dangerous behavior that is not linked to a skill __

displaying a lack of training or competency __
